## SUPER DAHLIAS MARCH ON

An interesting article of a great Magazine which may be of some interest to some one. Through the courtesy and permission of the AMERICAN BUSINESS SURVEY, Magazine, 100 Fifth Avenue, New York. We are herewith re-printing same with thanks.

### “DAHLIA KING OF THE BRONX”

Many persons are overcome by adversity; others adapt themselves to it. When Albert Parrella found ill-health forcing him to give up his occupation as a painter, he did not despair. He knew that there are other ways of making a living and of keeping healthy at the same time. It was those two considerations that turned him to raising dahlias.

Now Mr. Parrella is the largest producer of dahlias in the Bronx. He has made a business of it, and his yard at 3380 Ely Avenue is a veritable paradise for dahlia lovers—row upon row of the gleaming, beautiful blossoms, of many types and colors, many of them developed by Mr. Parrella himself; new types which he has created and made available to the world of flower-fanciers. He was one of the exhibitors at the 24th annual show of the American Dahlia Society, held at the Concourse Plaza Hotel in the Bronx, on September 20th and 21st. The show was one of the largest ever held in the East, if not in the entire country. The “dahlia had its day” there and fanciers of the flower came from the entire Metropolitan area, including the suburbs, to view the blooms on display.

Mr. Parrella's exhibit attracted considerable attention. It is understood that this had been a good summer for the blooms and that many of those on display were finer and more beautiful than any dahlias ever shown publicly before. Mr. Parrella was therefore upon his mettle but as his past work has shown, he can pit his ability to develop fine dahlias against anyone else, amateur or professional.

He introduced a new development, a commercial dahlia named after his daughter Margie Parrella.

Mr. Parrella has found his field, both of business and in a strong sense, of art, and he has made good. It shows that determination plus the background that makes for appreciation of the beautiful, are certain to bring success when one applies them with stick-to-it-iveness.

MODERN DAHLIAS, a book by “J. Louis Roberts,” is one of the most up-to-date in the art of growing better dahlias. Also how to take proper care of them from the beginning of the season to the end. Mr. Robert's has to his credit twenty-five years of experience in growing dahlias, and his knowledge is really worth while to the Amateurs as well as Professionals. The cost of this book is (\$2.00), which can be secured either from us or from the “Doubleday, Doran Outdoor Books,” Garden City, New York who are the publishers.

To My Friends . . . Greetings:

It is with pleasure that I present you with this, my Dahlia Catalog for 1939. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available to you only the best.

This catalog would not be complete if I were not to take advantage of the opportunity to thank you for your many letters telling of various successes obtained from stock purchased from me. I am grateful to those who have been able to visit my gardens as well as those who have inspected my exhibits at the American Dahlia Society Shows, and many other shows we attend, because I feel my dahlias speak best for themselves.

To those who are familiar with my stock, no introduction is necessary and you have my pledge that the same quality will not only continue but improve if such is possible. To those who have not tried my service this is an invitation, an invitation that may prove a real opportunity for you to realize something you may not have been able to obtain elsewhere and no order is too small nor is any contract too large, I am pleased to serve you.

ALBERT PARRELLA.

#### IMPORTANT NOTICE — DO NOT OVERLOOK

Due to the limited space we are compelled to be brief with our descriptions. However, we want our patrons to know that the varieties listed in this Catalog are either Honor Roll, Certificate Winners, or has proven with us to be truly outstanding. Not only that, but the varieties offered are reliable in every respect, good growers, fine producers, insect resisting foliage and most of them are of large size blooms, and true prize winners. If you are interested in large size dahlias, you surely are not going wrong by ordering from us. This may be of interest to you to know that we do not force our dahlias for size, but we are gratified to know that our customers secure the lion's share of prizes at the Show.

#### VISITORS ARE WELCOME

You are cordially invited to bring along as many friends as you possibly can to my gardens at any time after August 15th and see this magnificent sight. You are under no obligation to buy, but welcomed and I will be as happy to see you as you will be to see this magnificent collection of gorgeous massive flowers in all of the colors, shades, and tints of the rainbow.

I will have over 300 varieties, most of them Honor Roll dahlias, as well as many promising seedlings, and many new ones sent by other growers for trial and that have not been released for sale as yet, as well as many novelties.

We want to thank those who have sent to us Seedlings for trial this past season. Assure you we have given them the best of attention. We would appreciate receiving more of them for the coming season providing they are good. We will do all we can to put them over.

If there is any variety that you're interested in and don't find listed, write to us, we may be able to accommodate you, as we have many more varieties but only in small quantities, and that is why we have not listed them.

**THELMA CAIN** (I. D. Cain-Parrella)—In introducing this dahlia we are positive of offering a dahlia of outstanding merit. Thelma Cain received a "Certificate of Merit" with a score of 85 at Storr's Trial Ground in 1937, also received a "Certificate of Merit" at East Lansing in 1938, under the number of Gold No. 5 or Golden Radiance, so this dahlia must be good. **TEN BRIEF SUGGESTIONS TO THE AMATEUR ON HOW TO GROW BETTER DAHLIAS**

1. Select easily grown varieties and those giving full satisfaction.
2. Prepare the selected planting spot well and place the supporting stake.
3. Dig a hole, next to the stake, about 10 inches in diameter and 7 to 8 inches deep, and place one handful of bonemeal in the hole, or any other recommended fertilizer and mix thoroughly with the soil before planting.
4. Place roots in flat position with the sprout or "eye" facing upwards. Cover lightly with about 2 inches of soil. In doing this be careful not to damage the sprout. As the plant grows, fill around the stem with soil.
5. Do not plant too early. At times, too early planting spoils good roots. I would suggest planting from June 1st on, except in climates where a short growing season is prevalent. In that case use your own judgment.
6. Keep the soil well cultivated throughout the season, and prevent weeds from outgrowing the plant.
7. Water plants during hot weather at least once a week. Do not merely sprinkle them, but soak them. This must be done after sundown.
8. Tie the plant to the supportive stake with soft cord, at distance of 12 inches apart. This is done as an added security against destruction by wind and storm. Spray with any reliable parasiticide at least once every two weeks.
9. About August 1st, scatter, a handful of bonemeal about 6 inches around the stem and rake it gently into the soil. Other fertilizers may be used if desired. Do not use excessive amounts of fertilizer as injury to the roots will result.
10. About August 15th, the same treatment as above is applied. Disbudding at this time aids in the formation of bigger and better flowers and longer stems. This should insure good results. If any other information is desirable, I will gladly forward you the same.

**DIRECTOR MARSHALL A.**

**HOWE** (Parrella-Hulin-Blamer)

F. D.—This dahlia received “An Award of Honor” at the Georgia Experimental Station in 1937. In 1936 it was greatly admired at the N. Y. Botanical Garden under Seedling No. 500. We are herewith quoting the exact words of our Beloved friend, “Director Marshall A. Howe” in making the tour of the dahlia border he would pause before this seedling with its gorgeous blooms and say with a smile, “This is outstanding”. This information came to us from a very reliable source. That is the reason we renamed this dahlia.

**DIRECTOR MARSHALL A. HOWE**

(We are herewith giving the description received from the GEORGIA TRIAL GROUND which corresponds exactly with this lovely dahlia.) **DIRECTOR MARSHALL A. HOWE**. Very attractive in form and color. Color—general effects velvety Tyrian—rose; in detail, the color is a cardinal red over-lying mulberry. The red fades as the end of the petal is approached, showing the undercolor of mulberry purple. To the whole flower there is a cast of rose cerise. The petals fall back almost to stem, giving a ball effect. The substance of the bloom is very durable, well withstanding hot fall winds. Prolific Stems, strong and slender, holding bloom facing, 5 inches to 8 inches above first leaves. Plant—vigorous, strong, medium tall. Foliage—abundant dark green and attractive. On Mr. Johnston’s Honor Roll in HOUSE BEAUTIFUL.

## JUST A FEW OF OUR MANY TESTIMONIALS

Gentlemen:

Several years ago while living in Pawtucket, Rhode Island, I purchased from Albert Parrella, (I suppose that means you) a package of Chrysopcean Seed. I raised some handsome flowers and saved enough to plant a township, but in moving out into the country, the seed was lost. Have you a small package of seed on hand?

Yours Very Truly,

North Attleboro, Mass.

E. A. K.  
Emerson, New Jersey.

Dear Mr. Parrella:

Received the dahlias Saturday, and thank you for those fine roots. You surely do not spare expenses and work to satisfy your customers, and credit for real service is what you deserve, and I will recommend you when and where I can.

Yours Sincerely,

M. S.

## DAHLIAS IS A WONDERFUL HOBBY, IT KEEPS YOU OUTDOORS

Abington, Penna.

Dear Sir:

I want to tell you that I do appreciate your square dealing, also the quality of the roots sent me in the past. I have never seen better than Kaweah, Trimbee, Jane Ross, and others received from you, and hope to be able to continue doing business with such a 'square shooter.' Success to you.

San Leandro, California.

Dear Mr. Parrella:

I wish to inform you that I have grown this year, Mr. Frank W. Galloway's Min. cactus, "The Little Colonel" with great satisfaction, the color is brilliant, stems long profuse bloomer. Little Nell is also a beauty. I have raised dahlias for nearly 50 years, and I feel that Mr. Galloway has in the above dahlias something extra fine.

DOCTOR L. MICHAEL.

Devon Penna.

Dear Sir:

The dahlia plants ordered from you arrived yesterday in good condition, and I want to thank you for the extra one.

Yours Very Truly,

J. P. C. G.

Dear Sir:

The dahlia tubers arrived in fine shape, and I am very much pleased with the quality of tubers you sent me, and am sure they will make a fine showing this season. Also wish to thank you for the extra tuber you sent. Will be over to see your place in early September, and will pick out some new stock for next season.

Yours Truly,

W. F.

November 7th, 1938.

A partial comment received from Professor R. G. Huey, of Paintsville, Kentucky:

DARCY SAINSBURY has been very fine for me, winning a blue at the Ohio valley show in Cincinnati.

PHYLLIS KNIGHT one of the largest flowers I have grown and has plenty of refinement for one so large, I found that light shade as some as the color begins to show improves the show quality.

MRS. STEWART looks to be one of the good ones in this color, a good bloomer and a good plant.

Lubbock, Texas.

Gentlemen:

I have received the dahlia bulbs I ordered from you, and they were in good condition. I want to thank you very much for the two extra bulbs you sent me, they are both so nice.

Very Truly Yours,

M. F. S.

Chicago, Illinois.

Dear Sir:

I am writing to you to let you know how I got along with the dahlia seeds from you. They were very beautiful. The smallest was 4 ft., and the tallest was 9 ft. high. I really was surprised at them. The flowers were the same size as those from the roots, some of them were even larger. The roots were large also, you could make four or five out of one. I also had quite a few colors, but they were all light, none of them were dark. I am greatly pleased with them, and even more than satisfied.

Sincerely Yours,

M. B.

Elizabeth, New Jersey.

Dear Mr. Parrella:

The bulbs were received in good condition, and wish to thank you for prompt attention. I hope to see you later and look over your stock again. Best wishes.

Clearfield, Penna.

Dear Sir:

Please send me your 1939 Catalogue. The dahlia seeds purchased from you last year did exceptionally well. I grew thirty three large stalks from the fifty seeds. One pink in particular seemed exceptionally fine both in color and keeping qualities. I am saving over eight clumps which give considerable.

Respectfully Yours,

I. U.

Oneonta, New York.

Dear Sir:

Both the dahlia plants, and roots, have been received. Excellent plants, splendidly packed. Thank you for the gift enclosed.

Very truly,

I. S.

In conclusion, we want to thank all our customers, for their fine testimonials. We only regret that space won't permit us to publish all of them. Nevertheless, we want our customers to know we surely appreciate them.

## CHRYSPOPCAN

### THE BEAUTIFUL FLOWER

—o—

#### SEEDS

##### Combination Package 50c

Special combination consisting of the double amount of seed, and varieties, \$1.00.

The CHRYSPOPCAN is a very robust plant and grows on the style of a dwarf dahlia plant, but does not need any stake to support it.

CHRYSPOPCANS begin to bloom about June 15th and keep on sending out beautiful blooms until the latter part of July.

This picture shows a chrysopopcan plant in bloom. Note the sturdiness and vigor of this plant, also the stem that holds the flowers erect. Note the size and shape of flowers on plant, which was 4 feet high, also the foliage.

#### CHRYSPOPCAN DESCRIPTION

Twelve years of careful cultivation has been necessary to bring this beautiful flower to its present high state of perfection. The word beautiful does not describe it. One must see it bloom to really appreciate its rare beauty. Your imagination would need to run riot to gain any idea of the colors and tints.

The flower resembles in many ways the Chrysanthemum, Poppy, Carnation, and some have the shape of Dahlia, so it might be truly said that it is a combination of all these favorites.

The plant attains a height of from 2 to 4 feet. It has long graceful stems and handsome green foliage, forming an attractive bush. Each plant yields from ten to fifteen large and full flowers. One plant last year yielded 27 perfect flowers.

A chemist would probably analyze CHRYSPOPCAN to be composed of the following strains, Poppy, 75 per cent; Carnation, 10 per cent; Chrysanthemum, 10 per cent; Dahlia, 5 per cent; with some plants varying slightly one way or the other.

Most of these flowers are three to four inches in diameter. The petals are of imposing effect. Some are broad, resembling ruffled satin, which others are silky, curly and fringed. The formations are of great beauty, and it is impossible to give an accurate detailed description. Each flower has an attractiveness all its own.

Colors produced to date are: Ashes of Rose, Chinese Red, Pink, Fuchsia, Red, Lavender, Mauve, White, Pink Tipped, White and Scarlet with Light Stripes.

To grow Chrysopopcan once means it will always have a choice spot in your garden.

**MRS. JAMES ROOSEVELT** S. C. to I. D. (Parrella-Hulin)—An even grenadine red with streaked yellow reverse, which gives a predominant orange-red effect with yellow tints and lightings. Petals slightly twisting, curling and slightly crinkled. Immense size blooms, 11 inches or more without forcing, with great depth. A very beautiful dahlia in color and form. Something different. Height of plant, 5 feet. This dahlia was named in HONOR of our President's Mother. MRS. JAMES ROOSEVELT received an Award of Honor at the Georgia Experimental Station with the following comment: "So forceful in attention getting value that it approaches the spectacular." (Note)—This dahlia is on Mr. Barron's Honor Roll in the FLOWER GROWER, Mr. Johnston's Futurity in HOUSE BEAUTIFUL and Mr. Eldredge's Review in the MID-WEST DAHLIA NEWS.
